

THE HOMEWORK ZONE

The Homework Zone is a highly successful after school drop-in homework assistance program held at the three Carlsbad Library locations.

Students can drop-in for homework help anytime from skilled volunteer tutors. These Homework Zone leaders provide a wide range of skills and a strong desire to help students achieve. Homework Zone leaders can provide homework assistance in math, English, science and social studies, and most are accomplished professionals; for example two hold Master's degrees in engineering, one in psychology, and another a PhD. in physics and mathematics, and many have experience in education. Homework Zone leaders can assist many levels of students; from a student who has fallen behind or a student preparing for an advance placement exam.

Whether helping a student study for a test or assisting them to write a report or paper, the Homework Zone leaders are there to provide quality academic support.

Started in 2003, the Homework Zone has served over 500 students. The Homework Zone is available after school during the school semesters. The locations, days and hours are listed below.
